Our Day walk on Scawt Hill!

On the 28th of February we went on our first day walk!
We met at 9:00am when Rob picked us up in the BAC people carrier, we got kitted up and set off for Scawt Hill. When we got there we visited a bronze aged site this comprised of two large mounds with deep ditches around them these were believed to be ancient ceremonial or meeting places, this site was very interesting. Then we went ahead with our walk. The walk was very long but we had great fun and saw some amazing sites. We also saw Scotland! We had a few stops as our legs were getting sore. Our lunch break was beside the trig point which is in the picture on the right. Rob told us we didn't have long to go from there but it was ages away! It was fantastic and gave us a taster of what our expedition will be like. I am looking forward to more day walks!!!

Caving- On the 9th of February the girls & I went caving in BAC's Caves. The experience was fantastic. Rob and Vicki took us around the caves. Nicholle and I were both very confident. Lizzie and Anna were very scared and didn't like the caves. But I loved It and would do it again!

From The Editor

As the editor of this newspaper I would like to say so far I have had a wonderful experience at change your future and would like to give a big thank-you to Rob and Vicki for putting up with us! On behalf of the girls and I, I would like to say we are having a fantastic time!

New Upcoming Activities

Next month I would like to do more caving and also try new activities. I would like to visit some historical sites and do lots more day walks.
